

15/12/2021

We have visited this home on from DLCA. It is very clean and children were allowed to interact with us. The children were happy. We tested the food and it was tasty. We also interacted with the secretary. They have a financial crisis. Overall it is good.

This home has improved significantly since I last visited in January on behalf of DLCA. The children seemed satisfied and healthy. A lot of projects are also underway aiding development.
